

Our '360 Audit': Securing Panoptic

Keeping your funds secure is our top priority. Panoptic is rigorously audited by world-class security firms, ensuring a fortified and reliable options trading platform in all aspects.

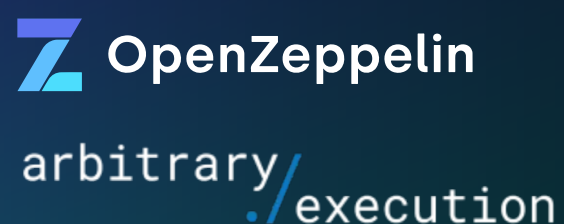

End-to-end Security

We're securing the full stack of our options platform, addressing potential vulnerabilities at every stage of the process, with the support of top-of-the-industry partners like OpenZeppelin and Arbitrary Execution.

End-to-end Security

We're securing the full stack of our options platform, addressing potential vulnerabilities at every stage of the process, with the support of top-of-the-industry partners like OpenZeppelin and Arbitrary Execution.

Economic Security

We're safeguarding the game theory and economic incentives underlying our protocol, utilizing expertise from Gauntlet, Three Sigma, and Simtopia.ai to ensure a robust and safe ecosystem for participants.
